Abstract

In this paper, we put mathematics to consciousness and mental constructs and show how we encounter Truth thru the scaffold that is a mental construct. We show how the mind results from nothingness in the Cosmic Pyramids, which has the mind at the top. This might be the intelligence that is called God.

Keywords: Mental Constructs; Mind; Consciousness; Golden Mean Parabola.

Introduction

In this paper, we consider the mind and consciousness. We will see that the mind can be expressed as an equation was an induction of 2 Henries. We will see how the golden mean parabola factors into calculations of the mind. We begin with Philosophy, then turn to math, both of which are mental constructs. AS mental construct is something that exists in the mind only but has a bearing on the world of mass. According to DC Dennett in his work Darwin's Dangerous Idea, Aristotle had that the world had a teleology in which there were four causes. They are:

1. Material Cause
2. Formal Cause
3. Efficient Cause
4. Final Cause.

According to their descriptions, I put the human body to them:

- (1) Flesh and Blood
- (2) Skeleton
- (3) Mind
- (4) Heaven where the soul meets God. According to Dennett, the teleology is "the goal or purpose of an artifact is the function it was designed to serve by its creator. [1] pg 24.

The famous philosopher Locke purposed that nothing could come from nothing. This is not true. The zero vector ensures that nothing cannot happen. The zero vector is perpendicular to itself. We shall see how this works below.

Loke had it that Matter, and Thought can never become to be. This i not true either. Matter or mass begins at t=1. Mass is the ln function that crosses the x axis at t=1. Thought comes from the mind., of course. The formula for the Mind=(S=E-M)=(-1/8+1/9)=-1/72

$$M=1/9=PE/c^2 \quad PE=Mc^2$$

&

$$t=KE=1/2Mv^2=1E=1/PE=1$$

Lock has it that "Sense, Perception and Knowledge must be a property eternally inseparable from Matter." "So, the Mind must come first or at least tied for first."

The human mind gets its sense knowledge from the five senses. According to Locke, "Sense, Perception, and Knowledge must be inseparable from matter."

$$\Pi \text{ Senses} / \Sigma \text{ Senses} = 2.67 = F = GM = (4)(2/3) = 8/3 = 2.666$$

Order comes from the gravitational constant.

Matter = Mass = Ln t. We will make good use of this equation below. Christianity is dying in the west where it once flourished and was the bases for that civilization -probably the most advance one in History. In my work, "Astrotheology", my goal was to bring science and religion back together. We need an explanation as to how religion and science could meet. "Natural religion, in Hume's day, meant a religion that was supported by the natural sciences". [1] pg 28 Astrotheology is support for Christianity.

In Hume's Dialogues, "...do we prove at once the existence of the Deity and his similarity to the human mind and intelligence."

$$y=y'$$

$$SE=SE'$$

$$\text{God} = \text{Mind}$$

$$y=E-G=0$$

$$G^2/2=(2/3)^2/2=0.222=\text{Working memory}$$

$$L=2=\text{Mind}$$

$$L \times M = 2 \times (1/9) = 0.222$$

$$L \times M = (2)(4) = 8 = t$$

$$1/t = E = 1.25 = E_{min}$$

$$SE = SE'$$

$$E = 5; t = 3 = c$$

$$t_0 = 2/\pi = 6.366$$

$$t^2 - t - 1 = SE = 33.15 = 1/301$$

$$t^2 - t - 1.3315 = 0$$

$$t = 1757; 7575$$

$$E = (1 - \ln(7575))^7 = 5.55555$$

$$= 180$$

$$= \pi \text{ rads}$$

$$= \text{God}$$

Philo suggested that we put the mind first and that God or Deity equals mind or thought.

$$SE = SE'$$

$$S = M \cdot E = -1/72$$

$$t^2 - t - 1 + 1/72 = 0$$

$$t^2 - 986 = 0$$

$$t = 31.9 \sim 318 \quad t = 309 \sim 31$$

These roots are equal to the **frequency of the human** mind and the prime number 31 = 12th prime number.

$12/31 \cdot \ln 31 = 0.1329 = \text{Internal clock of the brain.}$

“Hume knew that he had shown that the Argument from Design was an irreparably flawed bridge between Science and Religion. (Dialogues) Pg. 32 (1)

Philo:

” whenever matter is poised, arranged, and adjusted as to continue to perpetual motion...”

$$t = KE = 1/2 M v^2$$

$$t = 1 = 1/2(4)(1/\sqrt{2})^2$$

$$1 = 1 \text{ true}$$

$$a = v = 1/\sqrt{2}$$

$$\text{Plasma} =$$

$$-F = -GM$$

$$= -6.67(4) = -8/3 = SE$$

$$F = Ma$$

$$-8/3 = M(1/\sqrt{2})$$

$$M = 37712$$

$$M = Lnt$$

$$t = 0.2302$$

$$1/M = 265$$

From Philo:

“Suppose ...that matter were thrown into any position, by a blind, unguided force.

Suppose that the actuating force still continues in matter... Thus, the universe goes on for many ages in a continued succession of chaos and disorder... But is it not possible that it may settle at last?”

$\Delta S = 0 = \text{zero} \bar{v}$ A chaotic universe originates itself - no need of a creator.

Energy = 1 is eternal.

Before Darwin, a “Mind -First” view of the universe reigned unchallenged: an intelligent source of all Design; the ultimate answer to any chain of “Why?” questions.

Just as an amateur try to sing a song that he has heard on the radio, it is a dim imitation of the true version. The true version exists in the world of forms.

Math is a mental construct (Plato's world of forms).

Heaven is a mental construct.

$$\text{Heaven} = 3$$

$$\text{Mind} = 2$$

All that really exists is Mass.

$$M = 1/9 = E/c^2$$

$$M = 1/c^2 = \text{Input to the Mind. Output of the mind.}$$

Input/output creates the mental constructs.

Figure 1. Mental Construct and Truth and Consciousness

$$\text{Mind} = L = \ln t + c^3$$

$$[L] = [\ln t] + [c^3]$$

$$L^2/2 = t \ln t - t + C + c^3 t$$

$$2^2/2^2 = 2 = t \ln t - t + C + c^3 t$$

$$2 = t \ln t + (c^3 - 1)t + C$$

$$2 = t \ln t + 26T$$

$$2 = [\ln t + 26]/t + C$$

$$(2 - C)t = \ln t + 26$$

$$-26 = \ln t - (2 + C)t$$

$$26=(2-C)t - \text{Ln } t$$

Derivative

$$N=(2-C)-1/t$$

$$(C-2+N)=1/t$$

$$P-2=1/t$$

$$t=1/[P-2]$$

Let $P=0$

$t=1/2=t_{\min} \Rightarrow E_{\min}=-1.25 \Rightarrow$ Golden Mean Parabola =Mind= Consciousness

Conclusion

We see that mental constructs are useful in determining Truth. We move back and forth between the mental construct and Truth via consciousness which is given by the golden mean parabola.
